

Replacement of Watermains, Sanitary Sewers and Storm Sewers at Ashbourne Drive, Botfield Avenue, Charleston Road, Goswell Road and Prennan Avenue

Anticipated Construction Start Date: Summer 2010
Anticipated Construction Completion Date: Fall 2010

The City of Toronto has retained R.V. Anderson Associates Limited as consulting engineers to undertake the design of the above-noted project. Please refer to the map on page 2 for locations.

Project Details:

The scope of work is summarized as follows:

| Replace existing watermains at the following locations: | | |
|---|--------------------|--------------------|
| Street Name: | From: | To: |
| Ashbourne Drive | Bloor Street | Burnhamthorpe Road |
| Botfield Avenue | Bloor Street | Burnhamthorpe Road |
| Prennan Avenue | Burnhamthorpe Road | Mattice Avenue |
| Goswell Road | Prennan Avenue | Jospling Avenue N. |
| Charleston Road | Bloor Street | Leagate Road |
| Charleston Road | Swan Avenue | Rockfield Drive |

| Replace existing sanitary sewers at the following locations: | | |
|--|--------------------|--------------------|
| Street Name: | From: | To: |
| Ashbourne Drive | Bloor Street | Burnhamthorpe Road |
| Botfield Avenue | Bloor Street | Burnhamthorpe Road |
| Charleston Road | Swan Avenue | Bloor Street |
| Prennan Avenue | Burnhamthorpe Road | Bloor Street |

| Replace existing storm sewers at the following locations: | | |
|---|--------------|--------------------|
| Street Name: | From: | To: |
| Ashbourne Drive | Bloor Street | Burnhamthorpe Road |
| Botfield Avenue | Bloor Street | Burnhamthorpe Road |
| Charleston Road | Swan Avenue | Bloor Street |

The project will also include the replacement of any substandard water service connections that exist on any of the above streets where watermains and/or sewers are to be replaced. Substandard water service connections:

- will be replaced from the watermain to your property line.
- include those that may be made of lead or galvanized iron.

Next Steps:

The project is currently in the preliminary design stage. Accordingly, you may soon see our consultant's crews doing survey work and/or taking soil samples within the road allowance. Subject to obtaining required regulatory and funding approvals, this project will be tendered in the Spring of 2010. An additional notice will be delivered to you before construction starts to provide further information.

Please see Page 2 on back for additional information
