### Summary of District Investigations

#### Report Description:

This report is intended to provide statistical information related to the Municipal Licensing & Standards (ML&S) investigation activity levels within each Ward. The information contained within this report comes from the IBMS database. It is broken down into three parts:

##### Part 1- Active Investigations on ...

Statistical summary listing of all investigation matters that remain active at the end of the reporting period (the end of the reporting period will normally be the end of the month for those reports that are sent out automatically). These matters will be carried into the next reporting period/month. This list is broken down by by-law type. The reported activity level under the heading "Action Taken to Date" represent all activity documented from the start of the investigation up to and including the last day of the reporting period.

##### Part 2- No. of Active Investigations Carried into...

Statistical summary of the number of investigation matters that were carried into the reporting period. The reported activity levels under the heading "Action Taken (Summary of Period Activity)", represents only the activity taken within the reporting month.

##### Part 3- No. of Investigations Matters Received in...

Statistical summary of the number of new investigation matters that were received/created within the reporting period. The reported activity levels under the heading "Action Taken (Summary of Period Activity)", represents only the activity taken within the reporting month.
